

OUR GENETIC LEGACY PRESENTS:

# DRONePROJECT

DescendantsRecoveringOurNames

## UNCOVERING THE LOST HISTORY <sup>OF THE</sup> TRANS-ATLANTIC SLAVE TRADE USING DRONES

- Use LiDAR-enhanced drones to create virtual exhibits of historically significant locations in California, Ghana, and UK to show the resilience of the descendants of the Trans-Atlantic Slave Trade as part of an international all-female drone crew.

No prior experience needed.

ADVANCED TECH  
OPPORTUNITY FOR YOUNG  
WOMEN IN SAN DIEGO, GHANA,  
& UK

- A unique opportunity for young women ages 16 - 19 to become FAA-certified drone pilots and participate in a tri-country workforce development program. Participants will travel internationally applying their training in drone technology, advanced geospatial technology, and museum science while learning about virtual historic preservation and the fundamentals of entrepreneurship,
